PHILOSOPHICAL
TRANSACTIONS.

March 25. 1676.

The CONTENTS.
The Preface to this Eleventh Year. A particular Answer of Mr. Isaac Newton to Mr. Linus his Letter printed in Numb. 121, about an Experiment relating to the New doctrine of Light and Colours. Extracts of three Letters of Signor Cassini, containing his sentiment of Mr. Flamsteed's account of the last Eclipse of the Moon; as also his own Observations of that phenomenon; and likewise an observed Occultation of a Fixed Star by the Moon. Mr. Flamsteed's Answer to the former three Letters; together with some Celestial Observations made by the same. An Account of some Books: I. ARCHIMEDES ARENARIIUS, cum Notis & Versione D. Johannis Wallis, SS. Th. D. &c. II. Observationes Medicæ circa MORBORUM ACUROURS CURIATIONEM, Auth. Thoma Sydenham M.D. III. De CONSENSU VET. & NOVÆ PHILOSOPHÆ Libri 4, Auth. J. B. du Hamel, &c. IV. Of EDUCATION, especially of Young Gentlemen, &c. V. BATHONENSII & AQUIFGRANENSII THERMARUM Comparatio, varis adjunctis illustrata a R.P. VI. VINETUM BRITANNICUM, or a Treatise of Cider, and such other Wines and Drinks, as are extracted from all manner of Fruits growing in this Kingdom; with a Method of propagating all sorts of Vinous Fruit-trees, &c.

The Preface.

In this Preface to my Eleventh Volume, which, under the Divine favour, I now begin, I shall only take notice of what seems to be most deficient, or most of all to retard the general growth of Physiological knowledge.
