OF

LONDON,

FOR THE

Advancement of Natural Knowledge.

This Twentieth Volume

OF THE

Philosophical Transactions

Is humbly Dedicated

By Hans Sloane, S. R. Secr.
TH E Honourable the East-India Company, having
received from Mr. Samuel Browne, a Physician
who has lived Seventeen Years in their Service at Port-
St. George, or Madaras, in the East-Indies, a very con-
siderable Collection of dried Specimens or Samples of
Plants, Fruits, and Drugs; together with an Account of
his Observations of the Uses of them, by the Natives
and others of those Parts, both in Phylick, Dying, &c.
have very generously and for the Publick Good,
presented them to the Royal Society of London for im-
proving Natural Knowledge: Who considering the great
Use and Improvement may be made of such Collections,
have ordered that the Publick shall have the Benefit of
this Present, by receiving the whole Account that came
with them, from time to time in these Papers, and by
taking care that the things themselves shall be preserved
from Corruption in their Repository, where recourse may
be had to them by the curious, so soon as they are put
into such a Condition, as not to suffer by being handled.
