AN
INDEX
TO THE
Twenty Sixth VOLUME
OF
Philosophical Transactions.

Air, the different Densities of it. See Experiments.
Amber, its Luminous Quality, No. 314. p. 71.
Animals of the Philippine Islands, No. 318. p. 241.
Barometrical Observations in the Year 1708. No. 321.  
Birds, some Account of their Migration, No. 315. p. 123.  
Blackness of the Face very unusual, in a Girl 16 Years of Age, No. 323. p. 424.  
Blood. See Circulation.  
Books. See the end of this Index.  
A Bullet, which lay in the Head near 30 Years, No. 320.  
p. 317.

C.

California, the Discovery of a Passage to it by Land, with a Description of the Country, No. 318. p. 232.  
The manner of observing the Circulation of the Blood in an Eel, No. 323. p. 448.  
A Colliery, that took Fire and was blown up near Newcastle, No. 318. p. 215.  
Copper. See Metals.  
Cornea, Observations upon Incisions of it. No. 322. p. 387.  
Coral. See Microscopical Observations.  

Diamonds,
D.

Diamonds, their Luminous Quality in the Dark, No. 314. p. 73. The Figure of their Particles, No. 324. p. 479.

E.

Echo's, some Observations upon them, No. 313. p. 7.

Electricity of several Bodies. See

F.

Freezing, See Experiments.

G.

Gangrene in the Thigh of a Woman 62 years old, No. 313. p. 41.

Glass, its Electricity, &c. See Experiments.

H.

Hydrophobia, A Relation of 3 Cases of it, No. 323. p. 433.

I.

Icy Mountains of Switzerland described, No. 320. p. 316.

An Idiot at Ostend, that swallowed several Brals and Iron-Instruments, No. 317. p. 170.

Inundations in Ireland, No. 320. p. 309.

Iron. See Metals.

Island raised by a Volcano in the Archipelago, No. 314. p. 67.

[L.

Lead. See Metals.

Light producible from several Bodies. See Experiments.

Lightning. See Thunder.

M.

Maurining of Land. See Agriculture.

Medicines, Purging and Vomiting, with a Table of their Doses in particular Ages and Constitutions. No. 314. p. 46.

Metals, Experiments made upon them with the Burning-Glass, No. 322. p. 374.

Migration of Birds. See Birds.

Monstrous Births, No. 320. p. 310.

Monuments. See Antiquities.

Mountains of Ice. See Icy Mountains.

Northern Streaming, No. 320. p. 310.

Phosphorus made of Human Dung, No. 314. p. 69.

Pitch, its Light and Electricity. See Experiments.

Quicksilver. See Metals.

Rain, the Quantity that fell in the Year 1707 and 1708. No. 321. p. 342.

Razors, the Edge of them observed by the Microscope, No. 324. p. 493.

Roman Coins and Monuments. See Antiquities.

Scurvy, the strange Effects of it at Paris in the Year 1699. No. 318. p. 223.

Formed-Stones, a Catalogue of some in the Ashmolean Museum, No. 314 p. 77.

Storms. See Thunder.

Styrax liquida, the manner of making it, No. 313. p. 44.

Sugar, the Figure of its Particles when Chrystalliz'd,

N. 323. p. 444.

Sulphur. See Metals and Experiments.

T.

Thunder and Lightning, which happened in Ireland, Aug:

N. 316. p. 137. Of the same at Coickester, No. 316. p

Tin. See Metals.

Tongue, Observations made upon it by the Microscope.

See Microscopical Observations.

Tumour, a very large one on the Thigh, No. 317. p. 172.

V.

Vitrification of Metals. See Metals,

W.

Water, its Weight, different Densties, &c. See Experiments.

Winds, their Velocity, No. 313. p. 36. Observations upon

the Winds and Weather in the Years 1707 and 1708. No.

BOOKS,

Of which some Account is given in this Volume of Trans-

actions.

Praelectiones Chymica Oxoniæ habita a Johanne Friend,

M. D. Ædis Christi Alumnæ, No. 320 p 319

An Account of Animal Secretion, the Quantity of Blood

in the Humane Body, and Muscular Motion By James

Keill, M. D. No. 320. p 324.

OEPXII0ITHE Helveticus, sive Itinera Alpina Tria, &c.

Authore Joh. Ja. Scheuchzero, M. D. No 316. p. 143:

LONDON:

Printed for H. Clements, at the Half-Moon in St. Paul's

Church-Yard. 1710.
